**Subject:** **Announcement of Audrey St. Onge**

---

I am pleased to announce that Audrey St. Onge has accepted the position as Director of Bakery Manufacturing.

Audrey began her career with Safeway at our Calgary Bread Plant in 2001 as a Management Trainee. She served roles as Supervisor, Plant Engineer and Superintendent at Calgary Bread. From 2006-2009 Audrey was the Plant Manager at Safeway's Taber Juice Plant where she led the plant to Best Overall of the Year in 2007. In 2009, Audrey left Safeway to take on the role of General Manager for Cara Airline Solutions in Montreal, where she re-connected with close family.

In the 2010, she re-joined Safeway at the LA Bread Plant, as Plant Manager and has been able to drive, with the team's support, the continued success of the operations to a higher level through customer service and operational improvements. During her tenure she was able to drive several new Boxford facility Capital Projects, implement BRC – Level A status, execute controllable cost initiative, several new product launches, and develop team members.

Her varied background in manufacturing, the pursuit of continuous improvement, and her leadership style will greatly assist her in her new role.

Audrey has received degrees in Biological Engineering in Food and Bio-processing from Dalhousie University as well as a Bachelor of Science degree in Nutritional Sciences from McGill University.

Please join us in congratulating Audrey on her new assignment.
