**Subject:** Steve Rempel Resignation

---

Steve Rempel, Group Vice President of IT Application Development, has announced that he is leaving Safeway, effective today. He has decided to pursue several areas of interest outside of Safeway.

Steve has had a 36-year career with the company, having started as a retail clerk in 1977 and moving through various store leadership positions prior to joining the Information Technology team in 1995. Steve served as Director of Information Services, Director of Application Support, Group Director of Application and Vice President of IT Customer Services and Support, before being named Group Vice President of IT Application Development in 2010.

Throughout his many years, Steve touched the professional lives of many and, in the process, developed a long list of friends. Please join me in thanking Steve for his contributions over the years, and in wishing him every happiness as he moves to the next chapter of his life.

With Steve's resignation please contact Chris White, Carrie Rasmussen, or me with any urgent issues or questions until Steve's replacement is announced.
